School Sports Premium Statement 2017-18

SPORTS GRANT

In March 2013 the government announced that it was to provide additional funding of £150 million per annum for academic years 2013 to 2014 and 2014 to 2015 to improve provision of physical education (PE) and sport in primary schools in England – The Primary PE and Sport Premium.

This funding is allocated to primary school head teachers. The funding is ring-fenced and therefore can only be spent on provision of PE and sport in schools.

- In the Autumn Statement 2013, the then Chancellor, George Osborne announced an additional year's £150m extended funding, taking the total investment to the end of the 2016 academic year.
- On 6th February 2014 the then Prime Minister, David Cameron committed to continue the funding for the Primary PE and Sport Premium until 2020. • On the 17th July 2015 the Department for Education announced that 2015/6 funding will remain at the same level as last year. • On 21st September 2016 the Department for Education released its grant conditions for 2016/17.
- On 24th October 2017, the Department for Education published new guidance on the doubled Primary PE and Sport Premium grant. Schools receive PE and sport premium funding based on the number of pupils in years 1 to 6. Schools with 17 or more eligible pupils receive £16,000 and an additional payment of £10 per pupil.

Schools must use the funding to make **additional and sustainable** improvements to the quality of PE and sport they offer. This means that you should use the Primary PE and Sport Premium to:

- develop or add to the PE and sport activities that your school already offers
- build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future years

There are 5 key indicators that schools should expect to see improvement across:

- the engagement of all pupils in regular physical activity - the Chief Medical Officer guidelines recommend that all children and young people aged 5 to 18 engage in at least 60 minutes of physical activity a day, of which 30 minutes should be in school
- the profile of PE and sport is raised across the school as a tool for whole-school improvement
- increased confidence, knowledge and skills of all staff in teaching PE and sport
- broader experience of a range of sports and activities offered to all pupils
- increased participation in competitive sport

For example, schools can use your funding to:

- provide staff with professional development, mentoring, training and resources to help them teach PE and sport more effectively
- hire qualified sports coaches to work with teachers to enhance or extend current opportunities
- introduce new sports, dance or other activities to encourage more pupils to take up sport and physical activities
- support and involve the least active children by providing targeted activities, and running or extending school sports and holiday clubs
- enter or run more sport competitions
- partner with other schools to run sports activities and clubs
- increase pupils' participation in the [School Games](#)
- encourage pupils to take on leadership or volunteer roles that support sport and physical activity within the school
- provide additional swimming provision targeted to pupils not able to meet the swimming requirements of the national curriculum
- embed physical activity into the school day through active travel to and from school, active playgrounds and active teaching

The following document details how we as a school intend to spend the sports premium allocated to us for this academic year (2017-18).

Please note: this is a 'live document' and will be updated regularly throughout the year.
